

COVID-19 PROTOCOLS

Hello! We are so excited that you are interested in Granite Ridge! Please know that we are following all local guidelines and implementing best practices to keep you and your group as safe as possible.

As you probably guessed, there are some restrictions and additional safety measures that we are requiring groups to take while they are on camp property.

Your group will be responsible for implementing all safety and sanitary procedures that meet CDC, state, and county guidelines. Please be prepared to enforce handwashing, social distancing, and other restrictions while your group is on-site. Masks are required during any indoor activity or situation where individuals cannot be socially-distanced. Please have each camper bring their own mask!

PREVENTION

We are requiring all groups to perform pre-arrival health assessments of individual campers before arrival at camp. This includes temperature checks and asking about current symptoms before arrival.

LODGING

We are ensuring social distancing by blocking off certain beds with appropriate signage. Please educate your group on this and enforce socially-distanced sleeping.

GRCC will be operating at reduced capacity. This will look like:

- Upper & Lower Dorm – 35 campers each, Lodge – 25 campers, North Lodge – 10 campers
- Camping will still be allowed and tents must be social distanced if part of different households.

Groups will also be in charge of their own cleaning of rooms and bathrooms during their stay. We will provide cleaning supplies.

ACTIVITIES

We will still be able to offer staff-facilitated activities (tomahawks, shooting range, archery tag, etc.), but they may look different than normal. Your group will still have complete access to the pool, pond, bikes and all other self-directed activities.

DINING

Granite Ridge will still be providing delicious meals to your group! We may have to serve meals differently than normal, be prepared to adapt. We also may require groups to enjoy meals outside depending on size and current regulations.

Please let us know if you have any questions.

We are excited to see you soon!

- Granite Ridge Staff
